

PINBALL ARMOR™

Available NOW at
sternpinball.com &
marcospecialties.com

Legs can be rolled
up and carried
separately

- Covers are constructed to protect and last: durable canvas on the outside, soft padded moving blanket on the inside.
- Covers are designed with ease of use in mind. Two adults can quickly cover the machine and ready it for transport or storage.
- The head cover is designed to slip over the top of the machine and is secured snugly with Velcro underneath the bottom. Once the head cover is in place, the head can safely be laid on the body and then secured using the attached tie down straps.
- The body cover is also designed to slip over the machine from the top once the head is covered and secured against the body. Once in place, 2 inch Velcro firmly secures the body cover to the machine.
- Pinball Armor protects the complete exterior with one layer of padding and the head with two layers.
