BETTER BANDS FOR BETTER PINBALL

Super-Bands™ are advanced, custom-formulated, polyurethane rings designed for pinball machine flippers and bumpers. They are more durable, allow better ball control, and are available in a dazzling array of vibrant colors.

Tested by professional pinball players and commercial operators, Super-Bands™ are proven to reduce maintenance and increase playability in all pinball machines. Super-Bands™ were carefully engineered to maintain the same rebound, or bounce, of traditional soft 45-durometer flipper rubber that pinball designers and professional players prefer. Made in USA for world class quality.

**MORE
DURABLE**

Customized polyurethane compound is more resistant to abrasion, ozone, and ultra-violet light than traditional rubber, and wipes clean when other dirt accumulates.

**BETTER
CONTROL**

Better tactile response than standard rubber coupled with industry-standard rebound allows for greater ball control by any player.

**VIBRANT
COLORS**

High-gloss surface with deep translucent colors look great on any game. Mix and match new colors to create a custom look.

Color	Standard 3-inch Flipper	Mini 2-inch Flipper
Black Gloss	39-6519-7	39-6553-7
White Translucent Gloss	39-6519-24	39-6553-24
Red Translucent Gloss	39-6519-23	39-6553-23
Orange Translucent Gloss	39-6519-20	39-6553-20
